

# Rimpex<sup>PMIS</sup> Quality

The One Thing  
That You Can't Compromise

[www.rimpexPMIS.com](http://www.rimpexPMIS.com)

# Control your risks, Increase your profit

## Identify

Companies that put a premium on risk management can cope with ever-increasing business risks while seizing opportunities that present themselves.

## Communicate

### **Why Risk-management leaders Generate higher profits?**

Integrating risk management into the life cycle of your projects gives you the opportunity to do two things. First, it helps you understand the implications of risk at the point of decision, rather than afterward. Secondly, it allows you to move very quickly and confidently, knowing that you've anticipated the risk and are less likely to have made a mistake that could slow you down.

## Mitigate

## Capture - Report - Fix

Inspections and recording defects require your full attention on the field. Conventional method of data collection is error prone, time consuming and leaves unusable paperwork.

RimpeX is a comprehensive company wide solution that uses cutting-edge technology. It enables efficient data capture, automated reporting and instant communications via mobile app or email, which will notify your team members, to take necessary actions.

You can also analyse real-time project progress, common issues, delays and overall performance on interactive dashboards- accessible anytime , anywhere.

- Inspections
- Non-Conformance Reporting
- Site Observation Reporting
- General Audits
- Snag
- Testing & Commissioning
- Progress Reporting
